

Conflux

Conflux Professional Technical Documentation

**License Installation Guide
v1.3 - v1.5**

Installation of the primary license file (for new installations)

To activate your purchased Conflux primary license, please follow the guidelines below:

1. Locate the file called `_ConfUser.py`, which by default is located:
 1. on Windows: `C:\Program Files\ConfluxProfessional\lib_ConfUser.py`
 2. on Linux: `/var/lib/conflux/lib/_ConfUser.py`
2. Open the file and locate the row with the variable `BASE_PATH`.
3. Open the folder that the `BASE_PATH` variable points to.
4. Save the *License.txt* file to this folder.
NB! The file name is case sensitive on Linux operating system!
5. Restart the Apache 2 web server
6. Check the license file by logging onto Conflux as user "superuser", selecting "Admin" from the left-side menu and then "System" from the top-right menu. The active user limit is displayed on the opened page.

Installation of upgrade license files (for extending user limits)

To activate your purchased Conflux user-limit upgrade license, please follow the guidelines below:

1. Locate the file called `_ConfUser.py`, which by default is located:
 1. on Windows: `C:\Program Files\ConfluxProfessional\lib_ConfUser.py`
 2. on Linux: `/var/lib/conflux/lib/_ConfUser.py`
2. Open the file and locate the row with the variable `BASE_PATH`.
3. Open the folder that the `BASE_PATH` variable points to.
4. Save the *ULicense1.txt* file to this folder.
NB! If you already have existing upgrade licenses installed on your system, increment the number in the license file (*1*) to one above the number of the highest installed upgrade license (for example *ULicense4.txt*)
NB! The file name is case sensitive on Linux operating system!
5. Restart the Apache 2 web server
6. Check the license file by logging onto Conflux as user "superuser", selecting "Admin" from the left-side menu and then "System" from the top-right menu. The active user limit and details of installed upgrade licenses are displayed on the opened page.
